

The advertisement features a central image of a colorful koi fish swimming in blue water. To the left of the fish is a pile of light-colored, granular clay powder. The background is dark blue with a subtle pattern of light spots. The title 'Clay for Koi' is written in a large, white, serif font at the top. Below the title, there are three lines of text: 'Improves Koi & Goldfish color', 'Fortifies immune system', and 'Replenishes essential minerals and trace elements'. To the right of the fish, there is another line of text: 'Montmorillonite clay is used by top Japanese breeders'. Below that, there are two lines of text: 'Add one tablespoon per 1000 gallons' and '3 to 4 times per week for the first 4 weeks', followed by 'Reduce to 1 tablespoon 1 to 2 times per week'. At the bottom right, there is a phone number '888 594-5329' and a website 'www.organicdigester.com'. The company name 'Strata International, Inc.' is written in a white, serif font at the very bottom.

Clay for Koi

Improves Koi & Goldfish color
Fortifies immune system
Replenishes essential minerals and trace elements

Montmorillonite clay is used by top Japanese breeders

Add one tablespoon per 1000 gallons
3 to 4 times per week for the first 4 weeks
Reduce to 1 tablespoon 1 to 2 times per week

Strata International, Inc.

SECTION I IDENTIFICATION OF PRODUCT

Product Name: Clay for Koi

Chemical Composition: Bentonite Clay 100%

Chemical Family: Natural mineral, montmorillonite.

U.S. Distributor: Strata International, Inc. 4821 Lankershim Blvd. #F220 North Hollywood, CA 91601 (818)755-0639

SECTION II INGREDIENTS

Clay for Koi is a clay product of naturally occurring hydrated aluminosilicate of sodium, calcium, magnesium and iron.

Crystalline Quartz CAS# 14808-60-7 (naturally occurring contaminant) 2 - 6%

SECTION III PHYSICAL DATA

Physical appearance: Pale grey to buff powder, odorless

Boiling point: N/A

Specific gravity (H₂O = 1): 2.5

Vapor pressure (mm Hg): N/A

Melting point: N/A

Vapor density (Air = 1): N/A
Solubility in water: Negligible

SECTION IV FIRE AND EXPLOSION HAZARD DATA

Flash point (C) and method: N/A
Flammable limits: N/A LEL None UEL None
Extinguishing media: N/A
Special fire fighting procedures: Inorganic mineral/non-flammable
Unusual fire/explosion hazards: N/A

SECTION V HEALTH HAZARD DATA

Nuisance Dust: Avoid breathing
Signs/symptoms of exposure: Excessive inhalation of dust may result in shortness of breath and reduced pulmonary function.
Acute and chronic: May cause delayed respiratory disease if dust inhaled over a prolonged period of time.
Emergency & First-Aid Procedures:
Eye Contact: Flush eyes with water
Gross inhalation of dust: Remove to fresh air, give oxygen or artificial respiration if necessary; get medical attention.

SECTION VI REACTIVITY DATA

Stability: Stable
Incompatibility (materials to avoid): None known, if used for intended purpose.
Hazardous decomposition or by-products: None known
Hazardous polymerization: Will not occur

SECTION VII PRECAUTIONS FOR SAFE HANDLING/LEAK PROCEDURES

Steps to be taken if material is released or spilled: Vacuum if possible to avoid generating airborne dust.
Avoid breathing dust. Wear an approved respirator.
Waste disposal method: Follow federal, state and local regulations for solid waste.

SECTION VIII SPECIAL PROTECTION INFORMATION

Respiratory Protection (Specify type): OSHA standard 1910.134 or ANSI Z88.2-1980 specification. Fire fighters should put on breathing apparatus.
Ventilation: Local exhaust None
Hand protection: None
Eye protection Protective goggles
